ESS

Random Loot Generator

Randomly generates various levels of loot for D&D games, from one person's treasure all the way up to a dragon's hoard

Treasure Generator

Create DnD 5e treasure hoards in a snap. Our AI generator helps you craft statblock-style details for loot and rewards.

Treasure Generator

Whenever considering treasure, the Narrator should customize rewards to the needs of the game, the logic of the ongoing story, and the party's desires.

Loot Generator

Generates a set of magical items for a party, based on the tables and rules in Xanathar's Guide to Everything, pages 135-136. If "Exact Level" is selected, the output will include a proportional number ...

Treasure Chest Generator

This generator will also randomly create any traps as well as determine if the chest is locked. In all cases, the specifics of traps and locks are scaled to the party level.
