

Solar panel 540 watt specifications

Overview

Most 540W solar panels have 144 half-cut monocrystalline PERC cells. Some types use bifacial technology. This means they can catch sunlight from both sides. This helps make more energy, especially outside. It's built on Waaree's Tier-1, ALMM-listed production line, carries a 1500 V DC rating for long strings, and comes with a 12-year product / 25-year linear power warranty (-0. Detailed profile including pictures, certification. The 540 watt solar panel is one of the best-rated solar panels, with high-quality 'A' grade solar cells and ultra-clear tempered glasses that are not easily broken. It can work effectively even in low light and cloudy conditions. These solar modules are equipped with a state-of-the-art 144-cell configuration, 10BB technology, and Mono PERC cells, ensuring maximum sunlight absorption and. Better light trapping and current collection to improve module power output and reliability.
