

Solar photovoltaic panel roof leaks

Overview

Signs of a roof leak under solar panels include water stains, damp odors, water pooling, and decreased energy production. To fix a roof leak, identify the source, repair the roof, inspect and upgrade the mounting system, and reinstall and seal the solar panels properly. After all, your solar installation was meant to enhance your home's efficiency, not compromise its integrity. But don't worry—you're not alone, and this issue is more common than you might think. Understanding how. In the worst-case scenario, roof damage from solar panels can even lead to leaking within a home, which could cause further complications and safety concerns for the property and its inhabitants.
