

# Solar power generation for fish pond submersible pump

## Overview

---

Solar fish pond pumps offer eco-friendly water circulation without relying on grid electricity. Surface pumps with solar panels, such as the 35-Watt kits, are ideal for off-grid. We had a look at 17 solar pond pumps and concluded that the AQUAPLANTON MNP SP50 is currently the best choice available on the market and this is why we featured it as our editor's choice. We love talking unique properties and water. [Click here](#), or if you prefer to call us directly, 888-637-4493 Or visit [page for Solar Fountains & Aeration Systems »](#). Floating solar pond pumps are designed to provide a renewable energy source for circulating water in a pond. Pump requires sunshine or very hazy cloud to run. It has a large pump (9x10x8 inches) that may be too large for a small water feature like a statue but should work well in ponds.
