

# Spain s new energy storage container factory

## Overview

---

Iberdrola España has commissioned the first pumping station set at Valdecañas, in Cáceres, Extremadura, which has a total capacity of 225 MW and includes a hybridized battery of 15 MW and 7. The innovation energy storage project auction is seeing positive outcomes for Spain with a series of projects announced, and a domestic battery manufacturer rapidly expanding its output. Earlier in December, the results of Spain's auction for innovative energy storage projects was announced by the. Spain's storage landscape is diversifying with BESS and pumped hydro projects across multiple regions, led by major utilities and new market entrants, and a connection pipeline that signals an accelerated rollout towards PNIEC targets. The Ministry for the Ecological Transition and the Demographic. The Spanish energy agency has proposed funding for 144 energy storage sites totaling 2. 14 GWh under a European Regional Development Fund program.

## Spain s new energy storage container factory

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity: 216KWH (customizable)

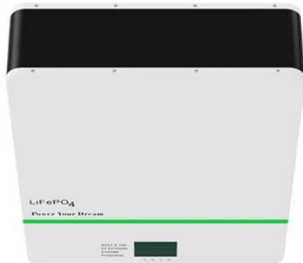

EMS communication: 4G/CAN/RS485

### Spanish storage: Iberdrola details its winning storage projects

A significant winner is Iberdrola España, which was awarded energy storage projects in six autonomous communities in Spain for a total of EUR170 million (USD 198 million) to build batteries, ...

### Current situation and challenges of energy storage in Spain

Parallel, galp has begun the development of two major energy storage facilities in Spain and Portugal, adding a capacity of 74 MW, with advanced battery systems that include grid-forming technology to ...

### Energy storage is growing in Spain with 3,400 MW of capacity

Spain boosts energy storage with new projects, highlighting batteries, solar hybridization and permits after the April blackout.

### Over 2.3 GW of storage in

## processing and 25 projects progressing in

Project locations are spread across much of Spain, with notable concentrations in Castilla-La Mancha, Castilla y León, Extremadura, the Valencian Community, Catalonia and ...

## Energy storage in Spain

Find out all about how Iberdrola España is revolutionising energy storage with advanced solutions for a future of sustainable energy in Spain.

## Jinko ESS deployed its first C&I energy storage projects in Spain

Jinko ESS announced that it has successfully completed its first Spanish installations. The installation of five high-performance Battery Energy Storage System (BESS) projects in various ...

## Iberdrola España commissions first pumping station at Valdecañas ...

Iberdrola España has commissioned the first pumping station set at Valdecañas, in Cáceres, Extremadura, which has a total capacity of 225 MW and includes a

hybridized battery of 15 ...

### Spain's EUR700 Million Plan to Boost Energy Storage and Renewable ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes ...

### Spain provisionally awards EUR839 million to 11 GWh of energy storage

Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects,

### Spain Energy Storage Program Launches with EUR700 Million in Funding

As of early 2025, Spain has roughly 1 GWh of grid-scale storage under

construction, according to industry sources. This new wave of funding could accelerate the build-out, enabling ...
