

# Tesla Weibo State Grid

## Overview

---

Tesla has signed its first deal to build a grid-scale battery power plant in China amid a strained trading relationship between Beijing and Washington. The company posted on the Chinese social media service Weibo that the project would be the largest of its kind in China. China is an important market for Tesla, with sales topping 120,000 units last year. File Photo by John Angelillo/UPI June 20 (UPI) -- Tesla Friday signed a \$556. Once completed, the storage facility is expected to play a key role in supporting the country's grid modernization efforts.
