

The largest solar array in Burkina Faso

Overview

Zagtouli Solar Power Station is an operational 33 MW (44,000 hp) solar power plant in Burkina Faso. [1] The development sits on 55 hectares (140 acres) of real estate. Dutch developer Gutami Holding has signed a 25-year power purchase agreement with Burkina Faso's national utility to supply electricity from a planned 150 MW solar project paired with 50 MWh of storage. The research utilized measured data and simulated the plant's performance using the PVGIS database. A 25-year power purchase agreement is also in place between Gutami and. The project is earmarked to deliver 150MWp of solar PV power integrated with a 50MW battery energy storage system (BESS) The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar. Burkina Faso will build an 18-megawatt solar power plant in Dédougou with €6 million in financing from the Sustainable Energy Fund for Africa (SEFA), a fund managed by the African Development Bank (AfDB).

The largest solar array in Burkina Faso

Performance Evaluation of Burkina Faso's 33 MW Largest Grid ...

This study examined the performance of Burkina Faso's first and largest solar photovoltaic power plant. According to the findings, the temperature of the modules can reach 47 °C during the ...
