

# Things to note when walking on photovoltaic panels

## Overview

---

While it is possible to walk on solar panels, it is not advisable due to potential damage and safety risks. Homeowners should consider alternative methods and leave complex maintenance to professionals to safeguard their solar investments and ensure optimal performance. This may occur if you are installing equipment on your roof where your panels are, if you are performing roofing work, or if you are cleaning your solar panels. Always take precautions when handling or cleaning them. And manufacturers try to make them with reinforced and.
