

# **Waterproof photovoltaic integrated energy storage cabinet for emergency rescue**

## Overview

---

The 112kWh outdoor energy storage system offers a robust, weatherproof solution for backup and off-grid power. Designed for flexibility and fast deployment, it's ideal for telecom, remote infrastructure, and emergency applications. Optimizing the use of renewable energy: Maximize the use of photovoltaic power during the day, while excess power is stored for use at night. Peak shaving & Valleyfilling: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Discover TANFON's Outdoor. The design of Scandpoint outdoor integrated cabinet energy storage system has independent self-power supply system, temperature control system, fire detection system, fire protection system, emergency system, and other automatic control and security systems to meet various outdoor application. ECE One-stop outdoor solar battery storage cabinet is a beautifully designed turnkey solution for energy storage system. This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. SOFAR Energy Storage Cabinet adopts a modular design and supports flexible expansion of AC and DC capacity; the maximum parallel power of 6 cabinets on the AC side covers 215kW-1290kW; the capacity of 3 battery cabinets can be added on the DC side, and the capacity expansion covers 2-8 hours.
