

# Where are the hydrogen energy stations in Syria

## Overview

---

Most of Syria's oil and natural gas fields are located in eastern Syria, in areas that are currently largely under the control of the predominately Kurdish Peoples' Protection Units (YPG) and where US forces are deployed. This article lists all power stations in Syria. ^ "Al Nasryeh (Nasserieh) OCGT Power Plant Syria - GEO". org since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and updated continuously from multiple sources on a best effort basis. Some of these energy sources are used directly while most are transformed into fuels or. Energy in Syria is mostly based on oil and gas. Department of Energy's Hydrogen and Fuel Cell Technologies Office (HFTO) leads research, development, and demonstra-tion (RD&D) of hydrogen and fuel cell technologies across sectors—enabling innovation, a strong domestic economy, and abundant, affordable energy.

## Where are the hydrogen energy stations in Syria

---

### Energy in Syria

Energy in Syria is mostly based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. There is high reliance on fossil fuels for energy in Syria, and electricity demand is projected to increase by 2030, especially for industry activity such as automation. However, conflict in Syria has caused electricity generation to decrease by nearly 40% in recent years due to plant destruction and fuel shortages. Electricit...
