Overview

Despite what misleading ads suggest, you can't get free solar panels from the government. Historically, these ads were referring to the federal solar tax credit, which expired for residential systems in 2025. However, the federal government does not offer any programs. We are a high-tech enterprise engaged in the manufacture and sale of crystalline silicon solar cells, including 5 mono-crystalline and poly-crystalline solar cells. Founded in 2007, our company is located in minhang export processing zone, fengxian district, Shanghai. "I have never seen an advertisement offering free solar that is not a lie," Neil Gallagher of Brighterway Solar, a solar installation company in Florida, told us. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. Solar settlements, also known as PPAs (Power Purchase Agreements), let you put up solar panels for free, but you have to pay each month for the energy they produce.
