

# Wind and photovoltaic power generation approval

## Overview

---

President Donald Trump said the U. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now having the final say. Renewable companies fear that projects will no longer receive permits that were once normal course. In the wake of this directive, the federal government has taken actions to encourage the deployment of renewable energy and other low-carbon energy sources. Actions to expand generation and consumption of solar and wind energy are seen in three distinct arenas: (1) incentivizing renewable energy. In our latest Short-Term Energy Outlook, we forecast that wind and solar energy will lead growth in U.
